1) Definitions of ARCHETYPE:

a type of character, detail, image, or situation that appears in literature from around the world and throughout history.

2) Give me one example of an archetype from any movie:

---

Delusions of Grandeur: A delusion (a belief that is maintained even after proven false) that you are much greater than you actually are. This goes with the hero archetype.

## Archetypes in Julius Caesar

- Hero: Brutus is the hero because he has delusions of grandeur.
- Lover: Portia because she depends on Brutus
- Citizen: Cobbler/Carpenter because they are a part of Rome
- Caesar: because he is Rome's closest thing to a ruler
- Magician: Soothsayer because he can see the future
