

## "Sound of Thunder" T-Rex Drawing

Use the story to draw a T-Rex without drawing a traditional picture of a dinosaur. Use Bradbury's images as inspiration to create the beast Eckels may have seen when he traveled back in time:

1. Be creative, neat, colorful and effectively fill the paper.
  2. Use at least 8 details from the story and draw exactly as described to create the dinosaur.
  3. Appropriately label the dinosaur on the back of your paper by writing the body part being described, the full quote from the story, and device shown. Be sure to label what figurative language device it is! Use Bradbury's more vivid descriptions to create your dinosaur.
  4. Fill in the background of your picture with details from the story like the path, the time machine, or other details described by the author.
